

... the current situation or "what is" (A),

... what you want the situation to be or "what might or should be" (B), and

... a plan for getting from where you are to where you want to be or
"feedback designed to reduce the gap" ($A \rightarrow B = C$).

- **what do I want to learn or understand better?**

A: I feel I have a better understanding the scrum process after the minetest exercise.

B: I want to have more experience of scrum so that I can use it more efficiently in the future.

C: The goal and means to complete it is still the same as last week.

- **how can I help someone else, or the entire team, to learn something new?**

A: We have not really started the development process yet

B: The same as last week, I want to always be able to communicate the knowledge I have of a certain topic to the members of the group that does not have that knowledge so that they may be able to use that in the project and accelerate our progress.

C: The goal and means to complete it is still the same as last week.

- **what is my contribution towards the team's use of Scrum?**

A: I have previous knowledge of the use of Trello which I believe will come in handy.

B: I want to help the group organize the project process.

C: To reach this goal I would take the following measures:

- Help with settings goals to work towards for each sprint.
- Keeping up with the groups progress and discuss with the group the current progress if I believe it to be necessary.

- **what is my contribution towards the team's deliveries?**

A: Actively discussing the progress the group has made and trying to stay on topic for the crucial problems. Always trying to activate the members that are less active.

B: I want everyone to be able to tell if they are not sure about being able to complete a task and feel safe about discussing new ideas. I want everyone to be active.

C: To reach this goal I would take the following measures:

- Listen to new ideas and discuss them.
- Try to find a solution if someone cannot finish their task.
- Notify the group if I feel that some/someone is not as active as the others.
